

Frank Benz

Mr. Frank J. Benz was named Director of Engineering at Johnson Space Center in June of 2000. Mr. Benz earned a Bachelor's degree in Chemistry in 1976 from New Mexico State University, and began his career with NASA in 1977 as a Test Project Engineer in the Laboratories Office of the White Sands Test Facility. He completed his Master's degree in Chemical Engineering in 1980, while working for NASA. Mr. Benz held a variety of increasingly responsible positions at White Sands, including serving as Chief of the Laboratories Programs Section and later as Chief of the Laboratories Office. In 1995, Mr. Benz was selected as Chief of the Manufacturing, Materials, and Process Technology Division within JSC's Engineering Directorate.
